

Level	Day	Financial Concept	Koin's Dialogue	The Required App Action
Budgeting (Level 1)	1	Division (50/30/20 Rule)	"Welcome to budgeting! The golden rule is Division . Before you spend, split your money: Needs, Wants, and Savings. Let's log your basics today to set a baseline."	Task 1: Log exactly 2 Needs expenses & 1 Wants expense. Task 2: Travel to School/Office and record a Transport expense. Task 3: End day with Needs $\leq 50\%$ and Wants $\leq 30\%$.
Budgeting (Level 1)	2	Diversification (Spending variation)	"Don't spend all your budget on just one thing! Diversification means spreading your spending across different categories so your lifestyle is balanced safely."	Task 1: Log expenses across at least 4 different categories. Task 2: Include at least 2 distinct Needs (e.g., Food + Transport). Task 3: Ensure no single category goes over 40% of the day's total spend.
Budgeting (Level 1)	3	Stress Test (Unexpected	"Surprise! A wild expense appeared. A	Task 1: Log 4+ total expenses today.

		costs)	good budget has a buffer to absorb shocks. Let's see if you can handle an Unplanned Expense without breaking the 50/30 limits!"	Task 2: Log 1 unplanned expense using the 'Other' category. Task 3: Finish the day with your 50/30/20 division perfectly intact.
Goals (Level 2)	4	Inflation (Purchasing power)	"Have you noticed prices going up? That's Inflation eating your purchasing power! To keep up, money needs to grow. We need to raise our targets to survive the price hike."	Task 1: Allocate funds to your Emergency and Fun goals. Task 2: Log an 'Other' expense named "<i>Inffiation Tax</i>" (5% of daily budget) to simulate rising costs. Task 3: Adjust and allocate more funds to stay on target.
Goals (Level 2)	5	Risk vs. Return (Capital allocation)	"Want your money to grow? You must choose: Low risk means safe but slow growth. High risk means potential for more, but you might lose some. How will you	Task 1: Split today's allocation heavily: 70% to Emergency (Safe/Low Risk). Task 2: Put 30% to Fun Money (High Risk). Task 3: Log a

			place your bets?"	notebook entry stating " <i>Expected Return: Steady</i> ".
Goals (Level 2)	6	Rebalancing (Portfolio parity)	"After taking risks, it's time to Rebalance! A smart saver adjusts their goals constantly to make sure one doesn't fall too far behind the other."	Task 1: Add specific amounts to goals so Emergency and Fun progress are within a 15% gap of each other. Task 2: Reach at least 80% combined goal progress to clear the level.
Saving (Level 3)	7	Simple Interest (Linear growth)	"Let's put your money to work! Simple Interest pays you a flat rate on your original savings. Keep your spending strictly to basics today to lock in your principal amount."	Task 1: Log maximum 1 Needs expense today. Wants = 0. Task 2: Calculate 5% of your remaining budget. Task 3: Log a Notebook entry named " <i>Simple Interest Earned: ₱[Amount]</i> ".
Saving (Level 3)	8	Compound Interest (Exponential growth)	"Here is the ultimate money hack: Compound Interest! This means earning	Task 1: Keep total daily spend $\leq 15\%$ of your weekly budget. Task 2: Calculate

			interest <i>on top of</i> your past interest. It starts slow, but grows like an avalanche!"	your new total (Principal + Interest) x 5%. Task 3: Log a Notebook entry named "<i>Compound Growth: ₱[Amount]</i>".
Saving (Level 3)	9	Temptation Test (Discipline)	"Head to the Mall! The secret to compound growth is patience and avoiding the temptation to drain your account. Let's practice controlled exposure."	Task 1: Travel to the Mall. Task 2: Log exactly 1 planned Needs expense (e.g., Grocery). Task 3: Log 0 Wants for the day while inside the Mall.
Saving (Level 3)	10	Mastery Audit (Final review)	"You mastered division, survived inflation, and harnessed compound interest! Finish strong by securing your final savings rate. You are Koin's ultimate Super Saver!"	Task 1: Log exactly 2 necessary expenses. Keep Wants ≤ 10% of today's spend. Task 2: Log a final Notebook entry: "<i>Compound > Simple</i>". Task 3: End the level with an overall weekly savings rate of ≥

				30%.
